### Instructions

**How:** To answer the questions correctly in this group, you need to consider the information in the corresponding screenshots which contain the information from the system's outputs. Any prerequisite information is provided as tips

**Why:** Your answers will help us evaluate the application's effectiveness in explaining how it arrives at the predictions about loan applicants' credit risk scores. Such predictions influence loan officers' decisions to accept or reject someone's loan. So it is important that the reasons behind the said predictions are apparent to the officers. *Imagine yourself as a loan officer who has the responsibility of the decision of granting a loan to someone which could make or break someone's future.*

**Housekeeping:**

- Some questions are simple attention checks. Failing more than one will result in the rejection of your response.
- Correct answers to the questions will receive monetary bonuses. Incorrect answers are not penalized.
